

# MANUAL TIP-UP PLATES

The manual tip-up plates RM205 and RM022 easy-fit are used by people who find it difficult to transfer from the wheelchair to the car seat and vice versa. They can be installed on vehicles with three or five doors, on either the driver side or the passenger side.

## RM205

The RM205 is available in two different versions: the manual removable tip-up plate, where the plate can be removed, and the manual foldable tip-up plate, where the plate can be rotated by 90° on its own axis and stored behind the B-pole. Many different sizes of plates are available. Its maximum weight capacity is 120 Kg.

## RM022 EASY-FIT

The manual tip up plate RM022 easy-fit is available in the foldable fixed version that can also be removed: the plate rotates 90 degrees downwards, folding in a vertical position. It includes a plastic plate with dimensions 260x170mm that has a metal structure underneath. Its maximum weight capacity is 100kg.
